F Notice d'instructions

I Istruzioni per il montaggio

- Vor Beginn der Arbeiten Anlagen und Gerät spannungsfrei schalten.
- Sicherungseinsätze und Trennmesser mit versilberten Oberflächen einsetzen.
- Zügig schalten

- Always switch off the power to the systems and equipment before starting your work.
- Utilize silver-coated fuse-links and isolating blades.
- Operate quickly

- Avant le début des travaux, mettre les installations et l'appareil hors tension.
- Veuillez utiliser des fusibles et des couteaux de coupeure avec des contacts argentés.
- Mettre en circuit rapidement

- Prima di iniziare il lavoro togliere la tensione dall'impianto e dall'apparecchio.
- Utilizzare fusibili e coltelli divisori con contatti argentati
- Operare rapidamente

Monitoraggio dei fusibili

! Nur Sicherungseinsätze mit spannungsführenden Griffnasen verwenden!

Nach Betriebsnahme Prüftaste drücken!

! Use only fuse links with metallic alive grip lugs!

Press test button after startup!

! N'utilisez que des cartouches à couteaux avec pattes d'extraction sous tension!

Après la mise en service, appuyer sur la touche de contrôle!

! Utilizzare solo fusibili con alette di estrazione sotto tensione

Dopo la messa in funzione premere il tasto di controllo!
